ESCENARIO DE PRUEBA

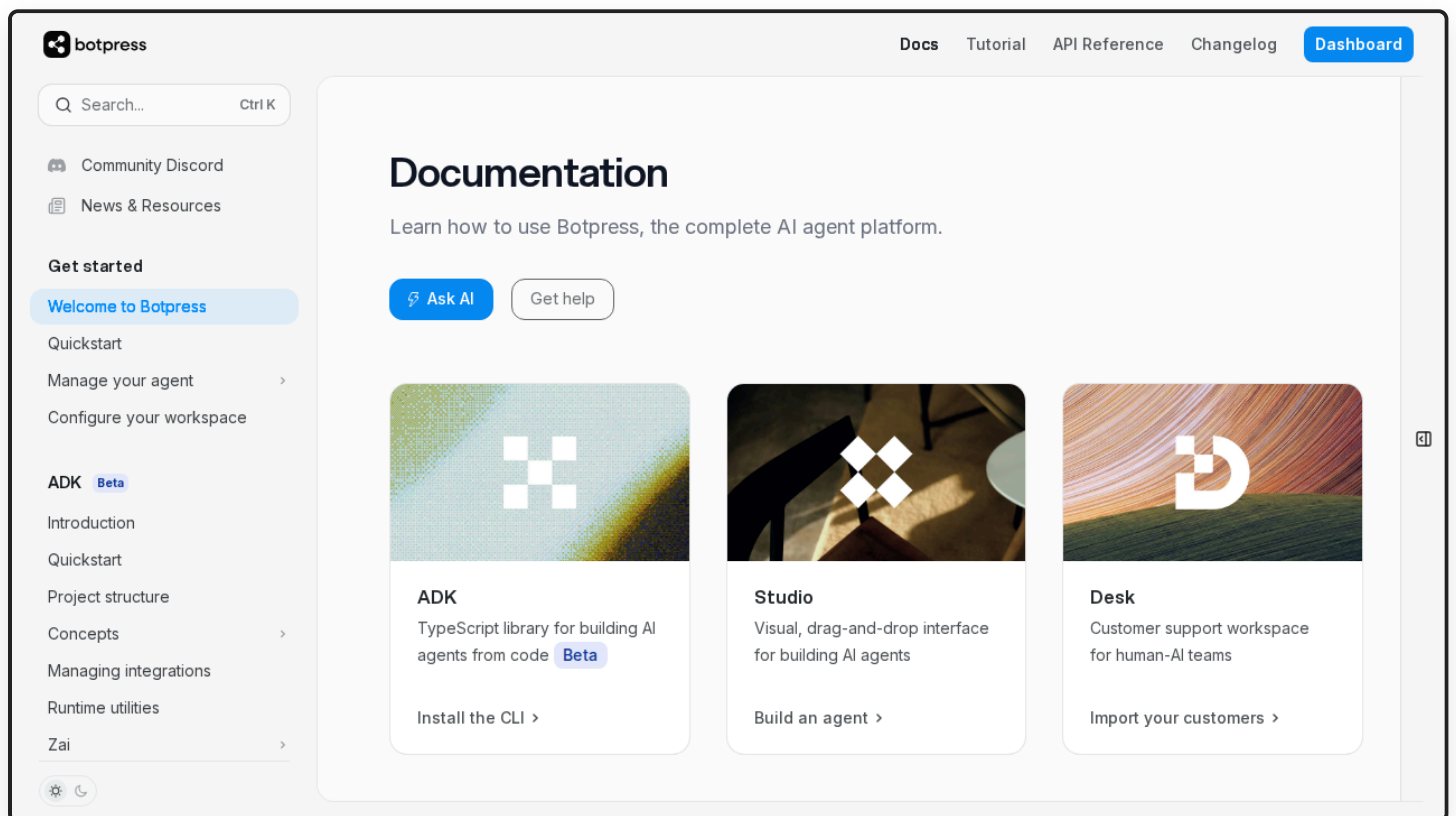

Recibir respuesta

FLUJO DE PASOS:

1. Navegar a la página de documentación de Botpress
2. Dirigirse a la pagina del ChaBot
3. Abrir el chat bot
4. Escribir y enviar mensaje
5. Recibir respuesta y validar contenido

PASO 1

Navegar a la página de documentación de Botpress

PASO 2

Dirigirse a la pagina del ChaBot

The screenshot displays the Botpress documentation interface. The top navigation bar includes links for Docs, Tutorial, API Reference, Changelog, and a highlighted Dashboard button. A search bar with the placeholder 'Search...' and 'Ctrl K' is located on the left. The left sidebar contains a 'Get started' section with links to 'Welcome to Botpress', 'Quickstart' (highlighted), 'Manage your agent', and 'Configure your workspace'. Below this is an 'ADK Beta' section with links to 'Introduction', 'Quickstart', 'Project structure', 'Concepts', 'Managing integrations', 'Runtime utilities', and 'Zai'. The main content area is titled 'Get started' and features a 'Quickstart' section with a sub-header 'Build, test, and deploy your first AI agent.' and a button 'Ask AI'. The text explains that it's easy to build an AI agent on Botpress in a few minutes, regardless of development experience. It then lists three features: 'Uses AI to respond to messages', 'Aligns with your branding', and 'Has a unique, shareable link'. A green callout box suggests checking out a 'platform walkthrough on YouTube' for visual learners. The 'On this page' sidebar on the right lists 'Step 1: Build your bot', 'Step 2: Fine-tune your bot (Optional)' (with sub-links for 'Appearance and style' and 'Behaviour'), and 'Step 3: Deploy your bot'. The 'Step 1: Build your bot' section is currently active, showing a numbered list starting with '1 Sign up for Botpress.'
