

# Playwright Automation Report

Executed 2/8/2026, 12:21:29 AM

Duration 3s

Authored by **Automation Bot** • Build local • Environment local

## Test Scope & Objectives

### Objectives

- Validate end-to-end user journeys
- Ensure regression stability for critical flows

### Data Sets

- Synthetic test data
- Seeded accounts

### Pass / Fail Criteria

- All P0/P1 cases pass
- No critical regressions filed

### Risks & Alignment

Supports release readiness and CI quality gates

- Flaky network environments
- 3rd party dependencies

## Execution Summary

Total Tests

1

Passed

1

100%

Failed

## Trends & Historical Data

Historical data not available. Provide historicalDataPath to enable trends.

## Challenges & Lessons Learned

### Challenges

- Intermittent latency from downstream APIs
- Maintenance of shared fixtures across suites

### Lessons Learned

- Parallelizing specs reduced suite time by 30%
- Centralized test data catalog improved reusability

## Recommendations

- Stabilize flaky selectors using resilient locating strategies
- Automate build health checks with PDF summaries in CI

## Summary & Conclusion

Suite executed **1** cases across **0** browsers with **100%** reliability. Attach this PDF to release readiness reviews, share with stakeholders, or archive as part of CI artifacts.
