

# REPORTE DE EVIDENCIA DE PRUEBA

## RESULTADO: PASADO

### DATOS DE EJECUCIÓN

**Fecha/Hora:** 09/02/2026 23:27:37

### ESCENARIO DE PRUEBA

**Acceder a la URL**

### FLUJO DE PASOS:

1. Navegar a la página de documentación de Botpress
2. Validar que la URL inicial y el título sean correctos
3. Dirigirse a la pagina del ChaBot
4. Validar que la URL y el título sean los correctos

## PASO 1

### Navegar a la página de documentación de Botpress

The screenshot shows the Botpress Documentation homepage. At the top left is the Botpress logo. To its right are navigation links: Docs, Tutorial, API Reference, Changelog, and a blue Dashboard button. Below these are search and filter icons. On the far left is a sidebar with links to Community Discord, News & Resources, Get started (with Welcome to Botpress highlighted), ADK (Beta), and Zai. The main content area features a large title "Documentation" and a subtitle "Learn how to use Botpress, the complete AI agent platform." It includes two buttons: "Ask AI" and "Get help". Three cards are displayed below: "ADK" (TypeScript library for building AI agents from code, Beta status, "Install the CLI >" link), "Studio" (Visual, drag-and-drop interface for building AI agents, "Build an agent >" link), and "Desk" (Customer support workspace for human-AI teams, "Import your customers >" link). The bottom left of the sidebar has a sun and moon icon for theme switching.

## PASO 2

Validar que la URL inicial y el título sean correctos

botpress

Search... Ctrl K

## Documentation

Learn how to use Botpress, the complete AI agent platform.

**ADK**  
TypeScript library for building AI agents from code **Beta**  
[Install the CLI >](#)

**Studio**  
Visual, drag-and-drop interface for building AI agents  
[Build an agent >](#)

**Desk**  
Customer support workspace for human-AI teams  
[Import your customers >](#)

## PASO 3

### Dirigirse a la pagina del ChaBot

The screenshot shows the Botpress interface. On the left is a sidebar with navigation links: Community Discord, News & Resources, Get started (selected), Welcome to Botpress, Quickstart (highlighted in blue), Manage your agent, Configure your workspace, ADK Beta (with sub-links: Introduction, Quickstart, Project structure, Concepts, Managing integrations, Runtime utilities), and Zai. At the bottom of the sidebar are dark mode and light mode icons. The main content area has a header "Get started" and "Quickstart". It features a search bar with "Search..." and "Ctrl K", an "Ask AI" button, and a "Get started" link. The "Quickstart" section contains text about building, testing, and deploying an AI agent, followed by a list of what you'll have by the end: "Uses AI to respond to messages", "Aligns with your branding", and "Has a unique, shareable link". A callout box says "Visual learner? Check out our [platform walkthrough on YouTube](#)". Below this is a section titled "Step 1: Build your bot" with a numbered step "1. Sign up for Botpress." The top right of the main content area has a "Docs", "Tutorial", "API Reference", "Changelog", and a blue "Dashboard" button. To the right of the main content is a sidebar titled "On this page" with links to Step 1, Step 2 (optional), Appearance and style, Behaviour, and Step 3.

## PASO 4

Validar que la URL y el título sean los correctos

The screenshot shows the Botpress interface. On the left, there's a sidebar with links like 'Community Discord', 'News & Resources', 'Get started' (which is expanded), 'Manage your agent', 'Configure your workspace', 'ADK Beta' (with sub-links for 'Introduction', 'Quickstart', 'Project structure', 'Concepts', 'Managing integrations', 'Runtime utilities'), and 'Zai'. The main content area has a search bar at the top right with 'Ctrl K'. Below it, there's a 'Get started' section with a 'Quickstart' button highlighted. The main title 'Quickstart' is displayed with a 'Ask AI' button next to it. The text says 'Build, test, and deploy your first AI agent.' It explains that building an AI agent is easy and can be done in minutes. It also states that by the end of the guide, you'll have a bot that can respond to messages, align with branding, and have a unique, shareable link. A callout box suggests watching a 'platform walkthrough on YouTube'. The right side of the screen shows a sidebar titled 'On this page' with sections for 'Step 1: Build your bot', 'Step 2: Fine-tune your bot (Optional)', 'Appearance and style', 'Behaviour', and 'Step 3: Deploy your bot'. There are also 'Ctrl I' and 'Up' navigation buttons at the bottom of the sidebar.
